

**Response to FCC Form 312, Question 42a**  
**USE OF NON-U.S. LICENSED SATELLITES**

**Page 1 of 1**

**INFORMATION ON USE OF NON-U.S. LICENSED SATELLITES**

Under GUSA Licensee LLC's ("Globalstar USA's") proposed modified blanket license (Call sign E970381), Globalstar USA's mobile earth stations would communicate with the same non-U.S. licensed satellites as currently authorized under station E970381: Globalstar, Inc.'s second-generation NGSO MSS satellites licensed through the Republic of France (Globalstar 2.0, ITU Name HIBLEO-X).<sup>1</sup> The instant modification application does not address issues specifically pertaining to Globalstar USA's authority to communicate with these French-licensed MSS satellites.
